

YOUR SHORTCUT TO SMARTER WORK

AI doesn't have to be complicated. These tools make work smoother, ideas easier, and even add a little fun to your day.

We've curated another set of powerful AI tools to help you get more done with less effort.

👉 *Best for: Anyone who Googles daily (so, everyone)*

GOOGLE AI SEARCH

[Explore Now](#)

Google's new AI-powered results give you quick, clear summaries of complex searches. Save time sifting through multiple pages and get direct, contextual answers.

SUNO

Custom Upload Audio v3.5

Song description: a song in the style of classical music about a ballet dancer struggling to find success in her career

dance, emotional, elegant, classical

👉 **Best for: Creators, podcasters, video editors**

SUNO.AI

Make Music

Turn text prompts into original music in seconds. Whether you need background beats, podcast jingles, or creative soundtracks, Suno lets anyone become a music creator — no instruments required.

Turn a long video into 10 viral clips in 1 click

Download Edit

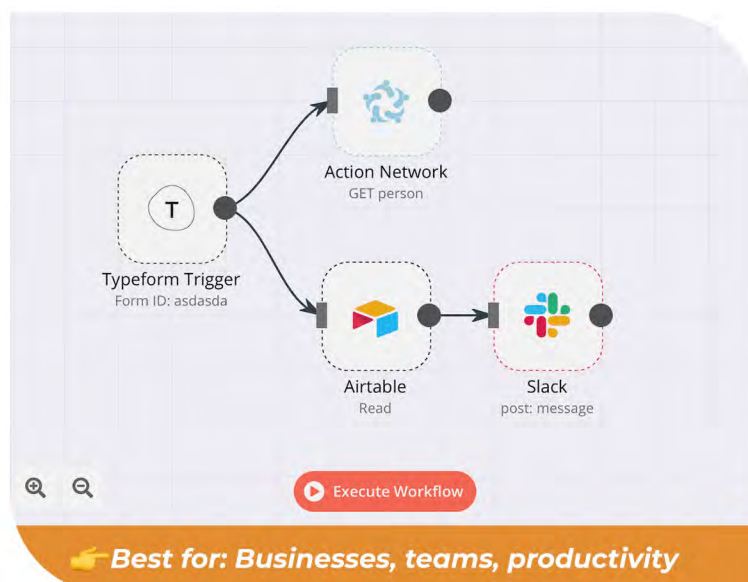

Opus Clip

👉 **Best for: Creators, marketers, educators**

OPUS CLIP

Cut with AI

Take a long video and instantly generate short, viral-ready clips for TikTok, Reels, or YouTube Shorts. Opus Clip identifies the most engaging moments and edits them automatically.

N8N

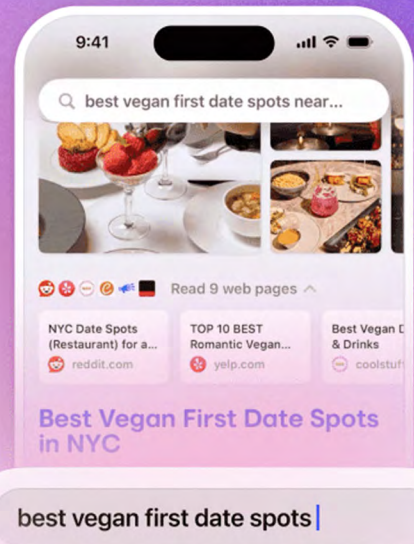

Get Started

Think Zapier, but open-source and more flexible. N8N connects your apps and automates tasks using AI triggers. From email workflows to social posting — so you can work smarter, not harder.

Arc Search

Fastest way to search.
Cleanest way to browse.

👉 *Best for: Students, researchers, knowledge workers*

ARC BROWSER & SEARCH

Browse Smarter

Arc isn't just a browser; it's a productivity hub. With Arc Search, you can ask questions and get AI-powered summaries instead of endless scrolling. Clean design, smart features, and faster answers.
