NORTON GENIE (AI SCAM DETECTOR)

Upload a screenshot, message, or link and instantly check if it's a scam or phishing attempt.

[Try Norton Genie](#)

👉 **Best for:** Detecting AI-generated fraud.

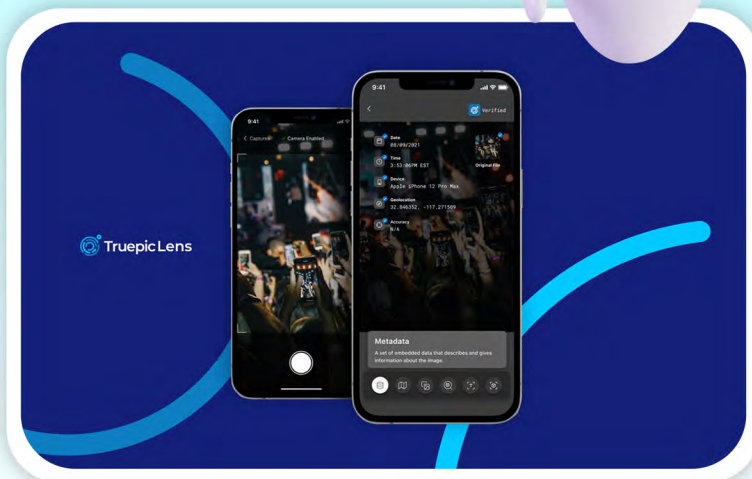

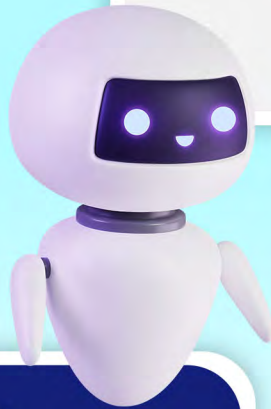

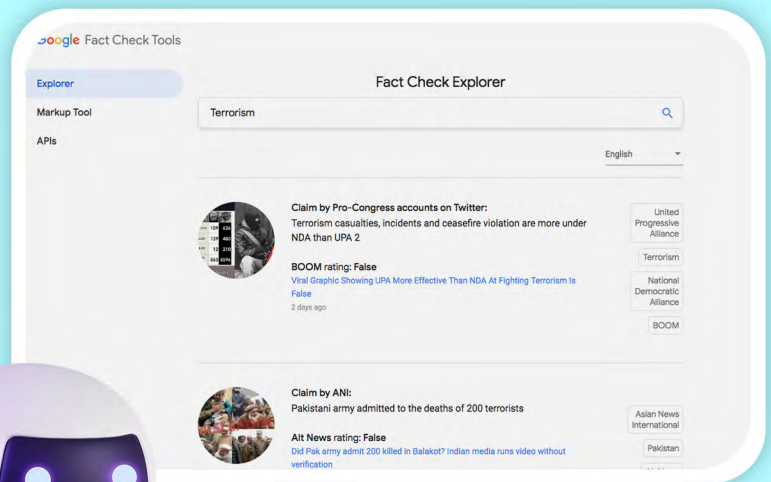

**PRIVACY MATTERS MORE THAN EVER
IN AN AI-DRIVEN WORLD.**

GOOGLE FACT CHECK EXPLORER

Search claims and view fact-checks from trusted, verified fact-checking organisations.

Use Fact Check Explorer

👉 **Best for:** Validating information quickly.

TRUEPIC

Verifies whether images or videos are real, edited, or AI-generated using authenticity detection.

Explore TruePic

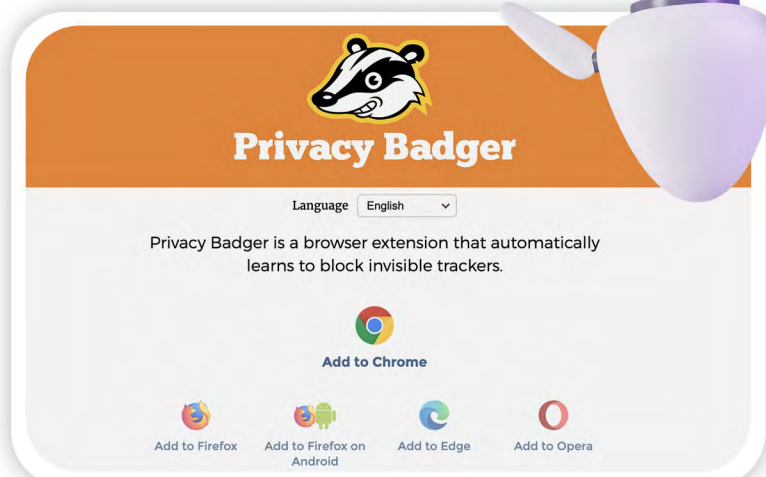

👉 **Best for:** Detecting manipulated media.

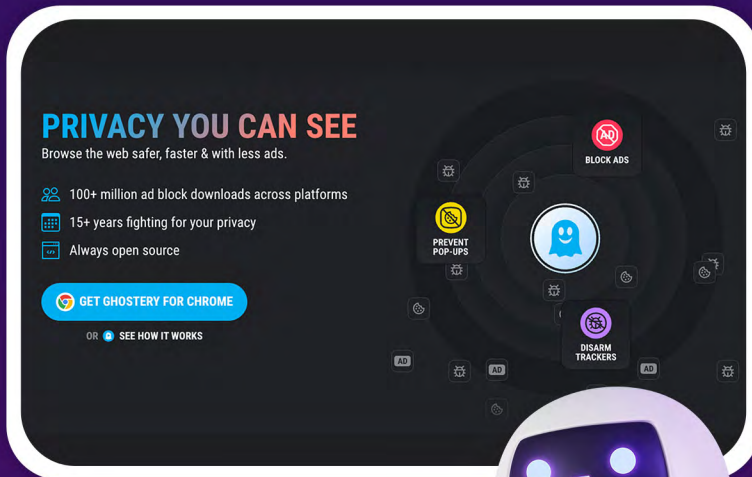

PRIVACY BADGER

A browser extension that blocks hidden trackers, advertisers, and stealth data-collection scripts.

Install Privacy Badger

👉 **Best for:** Protecting browsing privacy.

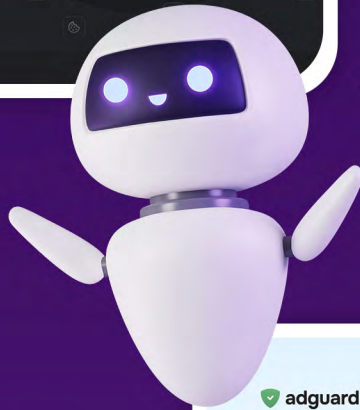

GHOSTERY

A privacy extension that blocks trackers, cookies, ads, and hidden data collection across websites.

[Download Ghostery](#)

👉 **Best for:** Cleaner, safer browsing.

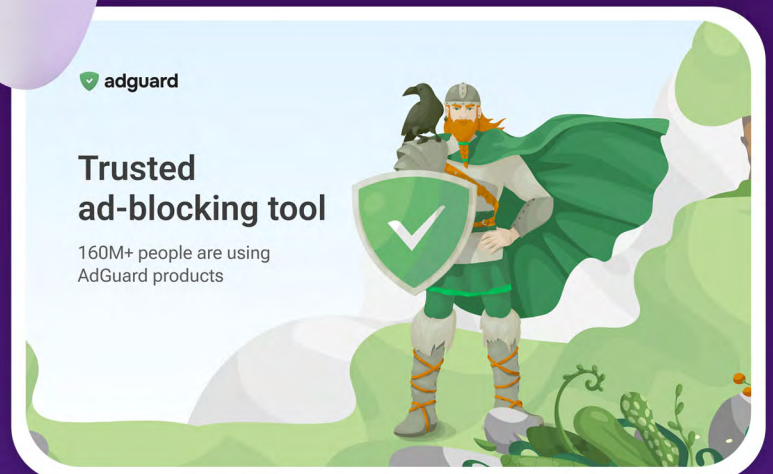

ADGUARD

Blocks ads, phishing websites, and malicious scripts that put your privacy at risk.

[Get AdGuard](#)

👉 **Best for:** Safe and distraction-free browsing.
